Training Needs Assessment Survey

The Professional Development Committee Workgroup is busy redesigning this survey.

Every three years the survey is conducted to gather information from the ECE community about current and future training needs. The information is used to guide planning over the next three years.

Our funders are asking for new information about programs and individuals. Some of the information will help establish a baseline of data that can be built on in years going forward.

For the first time take survey online or hand written copy early in 2012!

Bringing Out the Best!

Teachers Lighting the Path!

Watch for this exciting new training series debuting in spring 2012.
