

Early Childhood Workforce Index 2016 COLORADO

IN COLORADO, there are 403,852 children age birth through five years; 64 percent of these children live in households where all available parents are currently working, and 26 percent of all Colorado children are part of low-income families. It is widely agreed that the current early care and education system across states is woefully underfunded. The [cost of services](#) is out of reach for many working families, including those who earn middle-class wages. At the same time, large swaths of early childhood teachers — even those with college degrees — earn unlivable wages.

More than 15,730 members of the early childhood teaching workforce provide services to children in Colorado.

Occupation	Percentile	Median wage
Surgeon	99th	≥ \$90
Kindergarten teacher	51st	\$22.21
Preschool teacher	11th	\$13.11
Child care worker	6th	\$11.47

Selected Occupations Ranked by Earnings

- In 2015, the median wage for child care workers was \$11.47, a **3% increase since 2010**.
- For preschool teachers, the median wage was \$13.11, a **10% decrease since 2010**.
