January 18–April 9, 2021
Colorado Interpretation of The Reggio Emilia Approach to Early Childhood Education

Throughout this course we will encounter the philosophy, foundational ideas and practices from the infant toddler centers and preschools of Reggio Emilia, Italy. While exploring the deeply-rooted yet innovative Reggio Emilia Approach, in each module we will make connections to the Reggio-inspired work at Boulder Journey School, a school for young children and a teacher education program in partnership with the School of Education and Human Development at the University of Colorado Denver.

Presenter: University of Colorado Denver & Boulder Journey School
Where: Online
Cost: $520
Training credit: 2 CEU

January 18–April 9, 2021
Observation, Documentation & Assessment

This course will focus on how observation, documentation and assessment can be used to inform understandings about children and the practice of teaching. Specific attention is given to learning how to observe and document children’s thinking and learning processes so that useful documentation can be produced and later analyzed for new understandings and insights. Ecological and child development theories are combined with documented observations and assessments to make informed decisions in the classroom. Additionally, you will learn that understanding children’s strengths, competencies, cultures, races, languages and family experiences is essential to teaching and learning.

Presenter: University of Colorado Denver & Boulder Journey School
Where: Online
Cost: $520
Training credit: 2 CEU

January 25–May 25, 2021

CCAP Update: For comprehensive resources during COVID-19, visit www.boco.org/COVID-19Resources.

ABSENCE PAYMENTS CHANGED IN OCTOBER: New CCAP rules allow for payment of 2 absences per month for Level 1 & 2 programs and 3 absences per month for Level 3, 4 & 5 programs. Absences are paid automatically through the ATS system.

Full-day child care for school-age CCAP children. Child care is covered by CCAP even on days when parents choose to opt out of in-school classes. Care requested by parents should reflect the actual care that is being used. Please tell parents to send authorization requests to ccap@bouldercounty.org.

Non-school days (School Days Out) are NOT the same as a hybrid or online school day. If children need full-time care when school is in session Monday–Friday due to a hybrid or online school schedule, parents must submit a request to CCAP to have those days covered. If needed, parents may also request non-school days when the school is closed due to holidays, teacher in-service and breaks.

Kindergarten-age children may attend full-day child care. Programs that add a kindergarten classroom or have a mixed-age group that includes kindergarten-age children may enroll CCAP children.

Information for parents and providers, links to community resources, FAQs, and the CCAP Application in English and Spanish, are all available on the CCAP website at www.bouldercountychildcare.org.

If you need assistance with anything related to CCAP, please contact the Boulder County CCAP team by email at ccap@bouldercounty.org.

THE EARLY CHILDHOOD COUNCIL OF BOULDER COUNTY PRESENTS:

September - December 2020

FALL 2020 INFANT TODDLER HUDDLES

In an effort to provide opportunities of support for infant & toddler caregivers during COVID-19, ECCBC introduces community “Huddles.”

Huddles provide an online venue for participants to learn, share, support, and motivate one another.

These trainings are facilitated by Infant Toddler Specialists of the Early Childhood Council of Boulder County and are structured and influenced by the Touchpoints Approach and the evidence-based EQ Initiative with the state of Colorado.

Infant Toddler Huddles are open to anyone in Boulder County caring for infants or toddlers on behalf of a working family. Discussion topics include mental health, emotional wellness, resiliency, and trauma informed practice.

Receive 1 clock hour of social emotional training for participating.

For questions: Contact Emily Robbins eroбинseecbouldercounty.org

Huddles are provided at no cost and will take place online via Zoom. Register for as many or as few Huddle sessions as you want!

“Wednesday Huddle”
Wednesdays, September 23, 30, October 7, 14, 21, 28, November 4, 11, 18 & December 2
6:00 pm - 7:00 pm

Preregistration required: Click here to register!

College Information

- The school must be a **regionally accredited college or university**. Front Range Community College (FRCC), University of Colorado at Denver (UCD), University of Colorado at Boulder (CU), Colorado State University (CSU), University of Northern Colorado (UNC), University of Denver (DU) and Naropa are among the accredited institutions in Colorado.
- If you are taking an online course, make sure the school is accredited by a **regional accreditation institution**.
- Montessori Institutes are accredited by Montessori organizations. This is not the same as the regional accreditations for colleges and universities; therefore, these classes do not qualify for the Financial Incentive.

Professional Experience

For the purpose of this incentive, professional experience is considered to be work overseen by the Colorado Department of Human Services, Division of Early Care and Learning.

**Accepted types of work with children:**
- Licensed family child care provider
- Having worked with children in a licensed child care center or preschool

**Not accepted:** nanny; Sunday school teacher; parenting; cook; bus driver; or working in an exempt or unlicensed center, unlicensed preschool or unlicensed family childcare home.

Earn money for completing college courses in Early Childhood Education

October 2020
### What Is the Financial Incentive?

The Professional Development Financial Incentive of the Early Childhood Council of Boulder County (ECCBC) is a program designed to reward individuals for completing college courses in Early Childhood Education (ECE). Studies have shown that the amount of formal education a preschool child's teacher has completed is positively correlated to the child's later academic achievement. This incentive is designed to encourage and reward individuals who work in the field to pursue college courses in ECE. It is funded by one or more grants received by ECCBC specifically for this purpose.

### What Are the Requirements for the Financial Incentive?

- Must live or work in Boulder County at the time the course is taken, and when applying for the incentive.
- Must have a minimum of three (3) months in the ECE field.
- Must presently be employed at least 20 hours per week as an ECE professional (e.g., licensed family child care provider, licensed child care center, preschool or Head Start).
- Courses must be in the ECE field or a closely related field.
- Courses must be at an associates or bachelors degree level (Master's-level and doctorate course work are not eligible).
- Course grade must be B or better as documented by official transcripts (pass/fail, incompletes, or grades less than B are/will not be accepted).
- Up to three (3) credit hours may be used toward the incentive for each application window. The maximum amount awarded is $600.
- Colorado Early Childhood Professional Credential 2.0 holders are awarded at a higher rate, up to the $600 maximum per application window. Credential must be listed in PDIS by January 14, 2021 to apply.
- Official transcripts must accompany the application.
- No double-dipping of education funds provided by ECCBC. For example, you cannot use both the Financial Incentive and the Colorado Shines Quality Improvement grant funds for the same college course.

### How Does It Work?

The Financial Incentive is set up on a semester basis. This means that college courses taken and completed in either summer or fall 2020 may be used to apply for the Financial Incentive in January/February, 2021.

**Applications are only accepted from January 15 through February 15, 2021.** A postcard is mailed out to acknowledge receipt of the application. Applications and transcripts are reviewed in February/March, 2021. Those that meet the requirements are put into the accepted application pool. The number of accepted applications is then matched against the amount of money available for that semester's Financial Incentive. Checks are mailed to individuals no later than April 30, 2021.

Courses taken during spring 2021 may be used to apply for the Financial Incentive in June/July, 2021. Receipt of two Financial Incentives in one calendar year is encouraged. Please contact Emily Robbins at erobbins@eccbouldercounty.org for important information and instructions regarding the receipt of multiple awards.

### Colorado Early Childhood Professional Credential 2.0

A credential awarded to ECE professionals who meet education and experience criteria set by the Colorado Department of Education (CDE). For more information visit [http://ecpd.costarstrong.org/ets/pages/?p=credential_2.0](http://ecpd.costarstrong.org/ets/pages/?p=credential_2.0) or contact Nicole Malone at nmalone@eccbouldercounty.org.

---

**Financial Incentive application packets for courses taken in either summer or fall 2020 are posted on ECCBC’s website beginning January 15, 2021.** [www.eccbouldercounty.org](http://www.eccbouldercounty.org)

They are also mailed with the January 2021 Training Calendar.

Financial Incentive application packets for courses taken in spring 2021 will be available on ECCBC’s website beginning June 15, 2021 and are also mailed with the Summer 2021 Training Calendar.

Ask to be on the Monthly Training Calendar email list and you will receive the application automatically. Contact Emily at erobbins@eccbouldercounty.org.

**Applications for courses completed in either summer or fall 2020 must be postmarked by February 15, 2021.**

ECCBC ofrece a la comunidad el siguiente grupo: "Huddles", una oportunidad para los proveedores de cuidado infantil temprano durante el COVID-19.

El grupo “Huddles”, que se ofrece online, es una oportunidad para cuidadores de bebés y niños pequeños aprendan, compartir recursos, apoyarse, y animarse mutuamente.

Los mítines serán facilitados por Especialistas en el Cuidado de bebés y niños pequeños del Consejo Para La Primera Infancia del Condado de Boulder (ECCBC) y serán estructurados, y basados tanto en el método “Touchpoints” como en la investigación basada en los resultados de la iniciativa EQ del estado de Colorado.

El Grupo “Huddles” está abierto a cualquier persona del estado del Condado de Boulder que cuido infantes y niños pequeños para familias trabajadoras. Temas de discusión incluirán la salud mental, bienestar emocional, resiliencia, y cuidado informado en el trauma.

Los participantes recibirán una hora de crédito de entrenamiento socioemocional por cada sesión de “Huddle” atendida.

Patrocinado por el Programa de Desarrollo Profesional del Consejo para la Primera Infancia del Condado de Boulder (ECCBC en por sus siglas en inglés), Financiado por el Programa de Expansión de la Calidad en el Cuidado de Infantes y Bebés / Departamento de Servicios Humanos de Colorado

Outdoor Learning Environment Design Guidance

Design Workshop
In this 6.5-hour face-to-face interactive workshop, programs will learn about the Best Practice Indicators of the Preventing Obesity by Design Model and ways they can create an outdoor learning environment that not only engages children but leads to positive cognitive and physical benefits. Participants will collaborate with landscape design experts to design an outdoor learning environment they can implement in their program.

Design Clinic: Intensive
In this 2-hour face-to-face interactive workshop, programs will learn about Best Practices in outdoor learning environments. They will also work with landscape design experts to begin to re-imagine outdoor spaces to promote positive physical, social, and cognitive benefits for children.

Best Practice in Outdoor Learning Environments
Educators often spend hours ensuring the indoor classroom is engaging and enriching for young children. However, what about outdoor spaces at child care facilities? Often overlooked, outdoor learning environments can offer various learning and activity settings that have positive outcomes for children. In this 1.5-hour face-to-face interactive workshop, participants will learn about best practices in outdoor learning environments, why “green is good,” and identify one way they can begin to re-imagine their outdoor spaces.
Engaging Children Outdoors

**Brrr...It’s Cold Outside. Let’s Go Out and Play!**

So often cold temperatures and snow deter us from taking our children outdoors in Winter. Join us for this 1.5-hour face-to-face training to learn hands on and fun ways to engage children outdoors in Winter. We will discuss barriers, guided activities, and ways your outdoor space can support play year round. Let’s bundle up with hats, mittens and scarves, and play.

**My First Garden: Growing Plants with Young Children**

Not everyone needs to have a green thumb to learn how to grow plants with young children. In this 1.5-hour face-to-face training, participants will gain the confidence and skills they need to support container gardening in an early childhood setting. Participants will learn best practices in plant care and how to shop for plants at a local garden supply store. Participants will also be able to learn firsthand how to successfully plant a seedling and support its growth. Finally, participants will discuss appropriate ways to engage young children in gardening. Break out your tools, and let’s get messy! Participants will receive gardening resources and materials, and they will leave with their own container garden.

**Encouraging Messy Play in the Early Childhood Classroom**

Eww, yuck, wow that texture is unique! Sensory experiences are critical for child development, but sometimes educators avoid providing them because they are messy. In this 1.5 hour face-to-face training, participants will learn about the value of messy play, different types of messy play, and how to safely encourage messy play in the classroom and outdoor environments. Participants will also leave with recipes for safe messy play and get to experience hands on textures and opportunities for children.

**Water, Wind and Weather: Engaging Infants and Toddlers in Outdoor Spaces**

Our youngest learners are natural scientists. They crave opportunities for exploration, and discovery. However, did you know that many outdoor activities for infants and toddlers also promote critical physical development? In this 1.5-hour face-to-face training, join us as we explore positive and engaging ways to support infant and toddler growth and development through outdoor settings. We will explore how to create a safe and welcoming outdoor space for young children and engage in hands-on activities you can take back to your program.
Engaging Children Outdoors

Grass, Dirt, and Concrete: Engaging Preschoolers in Outdoor Settings
The outdoor learning environment is an integral part of any early childhood program. It provides opportunities for children to develop gross motor skills, engage in social interactions, and take appropriate risks. Playing in a more naturalized outdoor learning environment is more engaging for children, and small changes can positively impact children, staff, and families. In this 1.5-hour face-to-face training learn how adding loose parts to the outdoor learning environment can create new opportunities for cognitive growth and development, creativity, and language. By reimagining the outdoor learning environment as a dynamic and variable space, educators will gain new insights into ways to ensure no two days outdoors are ever the same.

Jump, Run, and Dig: Embracing Physical Activity in Nature
Outdoor time that promotes and supports physical activity is critical for child development. However, how can you embrace active play beyond a traditional play structure? In this 1.5-hour webinar, learn ways nature can create and promote opportunities for active play. Participants will plan for different types of movement including climbing, kicking, throwing, and lifting, and strategize how unique play elements including stumps, water, and ribbon can promote whole body development. Participants will also learn from examples of intentionally designed outdoor spaces that support the physical development of children.

Curriculum and Program Support

Taking Cues from Your Children: Emergent Curriculum in Action
Teaching is an art. It takes the ability to grow and learn with the children in the classroom. Utilizing emergent curriculum, a teacher is able to build upon a child’s interest and create an environment that embraces the journey for knowledge. In this 1.5-hour face-to-face training, participants will learn how emergent curriculum can be embraced in the classroom to not only help children achieve their academic goals, but also create an atmosphere of learning, collaboration and exploration. Participants will be able to plan for their own program and to understand simple first steps to implement emergent curriculum.
Creating Dynamic Outdoor Spaces for Young Children: Supporting Implementation

As early childhood professionals, we recognize the importance of the outdoors for the cognitive, physical, and social emotional development of young children. However, in many child care programs the outdoor play space for young children is often overlooked and underutilized. In this 3-hour face-to-face training, you will learn how to assess and analyze an outdoor space, be able to identify best practices in outdoor learning environments and begin to reimagine the outdoors into a dynamic, flexible and natural environment that engages children. The tools and experiences from this training will allow you to support child care programs in various settings and help ensure young children have access to high quality outdoor learning environments.

Fundraising and Community Mapping

Very rarely do we have all the tools and materials we need for the children in our classrooms. In this one-hour interactive webinar or face-to-face training, we will dive into the world of fundraising and provide easy ways to start approaching those in your community to gain monetary or material donations for your program. Participants will receive sample materials to start making the ask and learn how to no longer fear hearing “no.”

Community Engagement: Sharing your Journey

Engaging your families and the community creates the networks and supports you need to support the children in your care. As you reimagine and rethink your outdoor spaces, find your champions to help you bring your vision to life. In this 1.5-hour webinar, learn how to share about your journey with your families, identify local community supports, and learn how to lead a volunteer event for families and the community. Participants will also learn easy to build projects that can lead to big changes in outdoor spaces for children.

For Coaches, Directors, Child Care Health Consultants and Program Support Staff
For Family Child Care Providers and Families

Nature Play at Home
Are you interested in learning natural and affordable ways you can engage children in outdoor spaces in your home? Join us in this 1.5-hour face-to-face training to learn how to implement a naturalized outdoor learning environment in your own backyard. Participants will gain hands on knowledge of different play settings they can add to their outdoor spaces and easy ways to create a dynamic and engaging outdoor space. Each participant will leave with materials to start implementing right away.

Early Childhood Education

Degrees

• Associate of Arts for Transfer — A 60-credit transfer degree for students who want to teach preschool through third grade. Transfer as part of the statewide Early Childhood Teacher Education Articulation Agreement. This degree is accredited by the National Association for the Education of Young Children. Offered on campus and online.

• Associate of Applied Science — A 60-credit, non-transferrable degree for students who want to work with children from birth through age eight. You will earn two certificates with this degree — Foundations in Early Childhood Education and Early Childhood Director.

Certificates

• Early Childhood Director — 31 credits. This certificate prepares students for leadership and administration of early childhood programs.

• Foundations of Early Childhood Education — 16 credits. This certificate provides entry-level skills in early childhood care and education.

• Infant-Toddler Nursery Supervisor — 13 credits. This certificate prepares students for teaching children birth to age three and supervision of other infant/toddler staff.

• Early Childhood Education for Paraeducators — 21 credits. This certificate prepares students to support early childhood teachers in inclusive classrooms.

Early Childhood courses are provided in a variety of delivery formats: on campus, online, and hybrid.

Early Childhood programs are designed to meet or exceed the education requirements outlined by the Colorado Department of Human Services for early childhood professionals. Speak with an ECE advisor today for more information.
